FOR THE BOARD PACK

# AI readiness for boards and executive teams

We assess where you stand, prepare your board and executive team to lead, and stay alongside you through deployment. Every format is delivered in-house, for one board or executive team at a time.

| OFFERING | FORMAT | FOR | THE QUESTION IT ANSWERS |
|---|---|---|---|
| **01 Assess: know where you stand** | | | |
| **Personal AI Fluency Diagnostic** (coming soon) | Online, self-serve | Supervisory board, Executive team | How fluent am I, as a user and as a leader? |
| **AI strategy diagnostic** | Online, by invitation | Supervisory board, Executive team | Where does our company stand on AI strategy, governance and deployment? |
| **Deep-dive diagnostic** | Scoped per engagement | Executive team | Why are we where we are, and what exactly should change? |
| **02 Prepare: briefings and masterclasses** | | | |
| **Board briefing** | 2 hours | Supervisory board | What should the board oversee, and what can it expect from management? |
| **The agentic experience** | Half day (3.5 hours) | Supervisory board, Executive team | What can AI actually do, experienced first-hand? |
| **Masterclass AI governance** | 1 day | Supervisory board | How do we govern AI safely, compliantly and for value? |
| **Masterclass AI company transformation** | 1 day | Executive team | How do we design, run and scale the transformation? |
| **Masterclass leadership in the age of AI** | 1 day | Executive team | How do leadership, organization and the workforce change? |
| **Future foresight workshop** | Half day (3.5 hours) | Supervisory board, Executive team | What comes after this wave, and how do we stay resilient? |
| **03 Deploy: advisory and leadership** | | | |
| **Executive advisor** | Weekly 1:1, 1.5 hours | Executive team | Who challenges my thinking every week? |
| **Team advisor** | About 3 hours a week | Executive team | Who equips the team with method, templates and experts? |
| **Fractional Chief AI Officer** | 1 to 2 days a week | Executive team | Who owns the AI agenda until we can? |

SUPERVISORY BOARD PATH

# Board AI Program

Five steps that prepare the supervisory board to oversee, challenge and assure the AI transformation.

1. **Personal AI Fluency Diagnostic** · Individual diagnostic; coming soon
   How fluent am I, as a user and as a leader?
2. **Board briefing** · 2 hours
   What should the board oversee, and what can it expect from management?
3. **The agentic experience** · Half day, hands-on
   What can AI actually do, experienced first-hand?
4. **Masterclass AI governance** · 1 day
   How do we govern AI safely, compliantly and for value?
5. **Future foresight workshop** · Half day
   What comes after this wave, and how do we stay resilient?

## Why this sequence

The sequence starts with each director's own fluency, because a board oversees better what its members have tried themselves. The board briefing then sets out the board's oversight role and what to expect from management.

The agentic experience turns that understanding into first-hand experience. The governance masterclass builds the structures for oversight, assurance and control, and the future foresight workshop looks beyond the current wave, so the board's choices hold over time.

## At the end

- Directors with personal, first-hand experience of AI
- A shared view of the board's oversight role, and of what to expect from management
- Governance structures for oversight, assurance and control of AI
- A long-term view that keeps the board's choices resilient

Every step can be booked on its own. After the fluency diagnostic, steps can be merged, reordered or skipped to fit what the board already knows and the time it has.

EXECUTIVE TEAM PATH

# Executive AI Program

Five steps that prepare the executive team to design, lead and deploy the AI transformation.

1. **AI strategy diagnostic** · Online, by invitation
   Where does our company stand on AI strategy, governance and deployment?
2. **The agentic experience** · Half day, hands-on
   What can AI actually do, experienced first-hand?
3. **Masterclass AI company transformation** · 1 day
   How do we design, run and scale the transformation?
4. **Masterclass leadership in the age of AI** · 1 day
   How do leadership, organization and the workforce change?
5. **Executive advisor, team advisor or Fractional Chief AI Officer** · Ongoing, as the transformation needs
   Who challenges my thinking every week? Who equips the team with method, templates and experts? Who owns the AI agenda until we can?

## Why this sequence

The sequence starts with the AI strategy diagnostic, so the team knows where the company stands before it decides what to change. The agentic experience gives every member first-hand experience of what AI can do.

The transformation and leadership masterclasses then build the playbook for the company transformation and for how leadership, organization and the workforce change. Advisory carries the work through deployment.

## At the end

- A clear picture of where the company stands on AI strategy, governance and deployment
- First-hand experience of agentic AI across the team
- The playbook for the AI company transformation
- Leadership, organization and workforce choices for the age of AI
- Ongoing support through deployment, at the depth you need

Every step can be booked on its own. After the diagnostic, steps can be merged, reordered or skipped, and the advisory step is chosen to fit the depth of support the transformation needs.

## How booking works

1. **Request dates** at grow.studio/contact, with your preferred timeframe and the number of participants.
2. **A 30-minute intake call** to agree the board's context, priorities and the outcome the chair wants.
3. **A tailored proposal**: format, agenda and preparation, for your board only.
4. **Confirmed date and preparation pack**, including laptop setup for hands-on sessions.

## Practical details

| | |
|---|---|
| **Group size** | Masterclasses/workshops: maximum 10. Board briefings: agreed per engagement. |
| **Location** | Location and remote suitability agreed per engagement |
| **Language** | Agreed per engagement |
| **Confidentiality** | An NDA is available on request |
| **Price** | Tailored proposal |
