Fractional Chief AI Officer

A leadership role in your transformation, part-time and hands-on, until the capability is built in-house.

> Who owns the AI agenda until we can?

Who it is for

- Executive team
- Alongside the executive team

What you leave with

- Clear ownership of the AI agenda from the start
- Progress driven through project management, facilitation and reporting discipline
- The capability built in-house, so the role can hand over

Format

Duration	1 to 2 days a week
Format	Part-time leadership role
Audience	Executive team
Delivery	Location, language and remote suitability agreed per engagement.
Group size	Alongside the executive team
Cadence	Typically 1 to 2 days a week
Language	Agreed per engagement
Price	Tailored proposal

About

A leadership role in your transformation. We take ownership of the AI agenda alongside your executive team, part-time and hands-on, until the capability is built in-house. We drive progress through project management, meeting facilitation and reporting discipline.

How we work together

Cadence	Typically 1 to 2 days a week
Commitment	Part-time, hands-on, alongside your executive team
Typical engagement	Until the capability is built in-house

How it works

1. **Before.** We agree the mandate, the scope and the handover goal with the executive team.
2. **Each week.** Typically 1 to 2 days a week inside your organization, on-site or remote.
3. **After.** Regular reporting to the executive team, and a planned handover to your own leadership.

How to book

Request a conversation at grow.studio/contact, or email jaco@grow.studio.

Location, language and remote suitability agreed per engagement.
